

Protect your products by notifying staff and visitors that static control precautions are needed. Signs allow you to establish the areas requiring static protective measures. Apply them to doors, floors, walls, tote boxes, or to any area containing static sensitive parts. As part of ISO9000, many companies have implemented ESD control programs that reference the standards ESD 20.20, EIA 625, or MIL-HDBK-263. These standards require that work areas for static sensitive items be designated.

## **ESDSIGN4X10**

### *ESD Warning Sign 4x10 inches*

Black on yellow, plastic laminated paper. Includes adhesive straps for mounting. This size is convenient for individual work benches, part racks, and cabinets.

## **ESDSIGN8.5X11**

### *ESD Warning Sign 8.5x11 inches*

Black on yellow, plastic laminated paper. Includes adhesive straps for mounting. Appropriate for larger work areas and storage rooms, and doors.
